

CLAMP

Control before action.

You set a spending mandate. The agent asked outside it. Nothing paid.
The refuse is on the audit trail.

01 LIVE ON

Base Sepolia

02 PARSE

Kiln deepseek v4.1 flash

03 DECIDE

**Code gate. Zero
inference.**

04 PROVE

Audit receipts on chain

Open on the block.

AI agents can spend. Soft limits are not enough.

01 They talk around prompts

If permission lives only in chat, a clever prompt can walk past it.

02 Money needs a hard box

Purpose, budget, merchants, and an ending.
Temporary. Revocable.

03 Someone else must read it

A second person should reconstruct the story from a trail, not a vibe.

A delegation control layer for agents that spend.

The agent may act alone only inside a temporary mandate you create. Outside that box, money does not move.

INSIDE EVERY MANDATE

- **purpose**
- **budget including fees**
- **allowed merchants**
- **expiry**
- **revocable anytime**

THREE OUTCOMES. NO FOG.

The model parses. Code decides.

ALLOW

Clearly inside

Proceed. Record the settlement receipt.

BLOCK

Clearly outside

Stop. Pay nothing. Write why on the trail.

NEEDS HUMAN

Borderline

Hold. No pay until a person says yes or no.

Parse once. Gate in code. Leave a receipt.

01

Human UI Create the mandate. Review borderline cases.

02

FastAPI policy Mandate, budget, and gate as source of truth.

03

Kiln parse + explain deepseek v4.1 flash turns a sentence into fields.

04

Deterministic gate Zero inference. Allow, Block, or Needs human.

05

ClampAudit - Base Sepolia Mandate commits and decision receipts on chain.

[OPEN ON THE BLOCK](#)

Same mandate. Three real paths.

BestBuy \$20

Merchant not allowed · tx on Base

BLOCK

Hard controls. Inspectable trail. No fairy tales.

Live where it matters

Kiln for parse and explain. Base Sepolia for mandate and decision receipts.

Testnet labeled

No fake pays. No pretend chain. Residual risk stays visible.

Not unhackable

Control and records for Challenge B. We do not sell invincibility.

Ship the control layer agents use before money moves.

You set a spending mandate. The agent asked outside it. Nothing paid.
The refuse is on the audit trail.
